STAY OUT OF BLIND SPOTS

Be careful in the bike lane. Keep slightly ahead of any vehicle so the driver can see you, or ride a bit behind so you can stop if the driver makes a sudden right turn.

ADJUST YOUR SEAT FOR A SMOOTHER RIDE

1. Hop on your bike and place one heel on the pedal.
2. Pedal backwards until your pedal is in the six o’clock position.
3. If your leg is straight, you’re good to go. If not, raise the seat and try again.
